Synopsis

An insurance contract is a document with a 'promise to pay' if certain events happen. Since paying of claims is what insurance is all about, the handling and settlement of claims are important operations which have to be carried out promptly and fairly otherwise the insurer's reputation will suffer.

Let us share:-

Why an Insured having a Fire Claim should be aware on the Claims and Adjustment process and technique apply by Insurer and Loss Adjuster to fully cooperate and obtained the best result possible.

How an Insured with partial and complete damage on stocks and machinery from fire damage can obtained maximum Reinstatement? Adjustment should fully screen through all aspect under QUDSAD?

Claim and Adjustment is not Rocket Science but "Common Sense" and "Reasonableness" when applied appropriately makes a happy Insured and Insurer.
